

# BOE xxx 025

## PWM Box amplifier

### General Description

For interface between PC or CNC controllers with voltage output servovalves with a torque motor. Designed for snap-in assembly on 35mm DIN rail.

### Technical Overview

- **Supply** : +24v DC (18v...28v)
- **Output current** : 0...±200 / 1000 mA (adjustable)
- **Input options** : 0...±10v  
: 0/4...20 mA  
: 0...±20 mA
- **Dimensions (BxHxT)** : 27 x 79 x 85.5 mm
