

# HE 218

## Analogue Linear Amplifier

P-controller with current amplifier

### General Description

Standard European card with a fast and precise linear amplifier. Suitable for all servovalves as current amplifier or simple P-controller.

### Technical Overview

- **Supply** : 18v AC (x2)
- **Input signal** : 0...±10v
- **Output current options** : 0...±200 mA  
0...±300 mA  
0...±400 mA  
0...±650 mA  
0...±1000 mA
- **Dimensions** : 100 x 160 mm, 8 TE
