

BOE 002

Analogue box amplifier

General Description

Fast and precise linear current amplifier suitable for all servovalves. Designed for snap-in assembly on 35mm DIN rail.

Technical Overview

- **Supply (bipolar)** : +15...24v AC
-15...24v AC
GND
- **Output current** : 0...±200 - 700 mA (adjustable)
- **Input** : 0...±10v
- **Dimensions (BxHxT)** : 40 x 80 x 75 mm
